Research Papers

Genotoxicity of polycyclic aromatic hydrocarbons in *Escherichia coli* PQ37
V. Mersch-Sundermann, S. Mochayedi and S. Kevekordes (F.R.G.) 1

Genotoxicity of 1,3- and 1,6-dinitropyrene: induction of micronuclei in a panel of mammalian test cell lines
E. Roscher and F.J. Wiebel (F.R.G.) 11

Influence of different occupations with possible mutagenic effects on reproduction and level of induced chromosomal aberrations in peripheral blood
M. Kučerová, V. Gregor, J. Horáček, M. Dolanská and Š. Matějčková (Czech and Slovac Federative Republic) 19

Studies on the genotoxicity of monocrotophos in somatic and germ-line cells of Drosophila
N.K. Tripathy and K.K. Patnaik (India) 23

Enhancement by butylated hydroxytoluene of the in vitro activation of 3,3′-dichlorobenzidine
A. Ghosal and M.M. Iba (U.S.A.) 31

Germinal and somatic mutation induction in Drosophila after treatment of larvae with tritiated water
G. Ribas, C. Torres, M. Batiste-Alentorn, N. Xamena, A. Creus and R. Marcos (Barcelona, Spain) 43

Evaluation of the co-mutagenicity of ethanol and Δ^9-tetrahydrocannabinol with Trenimon
S.H. Berryman, R.A. Anderson Jr., J. Weis and A. Bartke (U.S.A.) 47

In vivo cytogenetic activity of diphenylhydantoin in mice
A.F. McFee, R.R. Tice and M.D. Shelby (U.S.A.) 61

Clastogenicity of lead chromate particles in hamster and human cells
J.P. Wise, J.C. Leonard and S.R. Patierno (U.S.A.) 69

Special Issue

Micronucleus Test with Rodent Peripheral Blood Reticulocytes by Acridine Orange Supravital Staining

edited by The Organizing Committee of CSGMT/JEMS · MMS

Preface
T. Sofuni (Japan) 81

Micronucleus test with mouse peripheral blood erythrocytes by acridine orange supravital staining: The summary report of the 5th collaborative study by CSGMT/JEMS · MMS
The Collaborative Study Group for the Micronucleus Test 83

Micronucleus test with cyclophosphamide using mouse peripheral blood reticulocytes
Y. Hatanaka, Y. Kitagawa, Y. Toyoda, T. Kawata, N. Ando, Y. Kawabata, M. Iwai and H. Arimura (Japan) 99

Simplified mouse peripheral reticulocyte micronucleus test with dimethylnitrosamine
S.-i. Sato, M. Taketomi and T. Morita (Japan) 103

Micronucleus test with ethyl methanesulfonate in mouse peripheral blood reticulocytes stained supravitally using acridine orange-coated slides
K. Kondo and S. Ozawa (Japan) 109

Micronucleus tests on *N*-ethyl-*N*-nitrosourea with mouse peripheral blood reticulocytes using acridine orange-coated slides
S. Hitotsumachi, Y. Kimura, M. Katoh, N. Ishihara, T. Hara and T. Shibuya (Japan) 113

The micronucleus test of methyl methanesulfonate with mouse peripheral blood reticulocytes using acridine orange-coated slides
C. Sugiyama, Y. Miyamae, H. Kobayashi, Y. Fujino, M. Mori and K. Ohara (Japan) 117

The micronucleus test with mouse peripheral blood on *N*-methyl-*N*′-nitro-*N*-nitrosoguanidine and mitomycin C
M. Kuramochi, H. Seki, T. Tazawa, S. Sakai and Y. Sakai (Japan) 121

The micronucleus assay with mouse peripheral blood reticulocytes using acridine orange-coated slides with triethylenemelamine
E. Yamamura, H. Hirono, M. Takeuchi, M. Kojima and S. Aoki (Japan) 127

The micronucleus assay with peripheral blood reticulocytes by acridine orange supravital staining with 1-β-D-arabinofuranosylcytosine
K. Iwakura, H. Tamura, A. Matsumoto, S. Ajimi, S. Ogura, K. Kakimoto, T. Matsumoto and M. Hayashi (Japan) 131

Micronucleus assays on 5-fluorouracil and 6-mercaptopurine with mouse peripheral blood reticulocytes
A. Ohuchida, A. Furukawa, J. Yoshida, M. Watanabe, F. Aruga, Y. Miwa, K. Shinkawa and N. Kinae (Japan) 139
The micronucleus test using peripheral blood reticulocytes from methotrexate-treated mice
Y. Kasahara, A. Wakata, Y. Nakai, K. Yuno, D. Miura, K. Yagi, K. Hirabayashi and T. Makita (Japan) 145
The mouse peripheral blood micronucleus test with 2-acetylaminofluorene using the acridine orange supravital staining method
N. Asano and T. Hagiwara (Japan) 153
The micronucleus test with peripheral reticulocytes from phenacetin-treated mice
N. Higashikuni, T. Baba, T. Nakamura and S. Sutou (Japan) 159
The micronucleus test of benzo[*a*]pyrene with mouse and rat peripheral blood reticulocytes
H. Shimada, H. Suzuki, S. Itoh, C. Hattori, Y. Matsuura, S. Tada and C. Watanabe (Japan) 165
Micronucleus induction in mouse peripheral reticulocytes by 7,12-dimethylbenz[*a*]anthracene
T. Suzuki, K. Tamai, Y. Kodama, A.O. Asita, A. Matsuoka, T. Sofuni, M. Kurita, H. Ohtsuki, T. Hiwatashi and M. Hayashi (Japan) 169
Detection of micronuclei in peripheral blood of mitomycin C-treated mice using supravital staining with acridine orange
M. Hara, S. Nakagawa, E. Fujioka, E. Ayukawa and T. Izushi (Japan) 175
Induction of micronucleated reticulocytes by potassium bromate and potassium chromate in CD-1 male mice
T. Awogi, K. Murata, M. Uejima, T. Kuwahara, S. Asanami, K. Shimono and T. Morita (Japan) 181
Micronucleus test with vincristine sulfate and colchicine in peripheral blood reticulocytes of mice using acridine orange supravital staining
Y. Kondo, S. Honda, M. Nakajima, K. Miyahana, M. Hayashi, Y. Shinagawa, S. Sato, K. Inoue, S. Nito and F. Ariyuki (Japan) 187
Effects of benzene in a micronucleus test on peripheral blood utilizing acridine orange-coated slides
Y. Hatakeyama, E. Nakajima, H. Atai and S. Suzuki (Japan) 193
Micronucleus evaluation in peripheral blood reticulocytes of mice treated with procarbazine hydrochloride or mitomycin C
F. Romagna, H. Matsumura, M. Watanabe, T. Kato, Y. Shirasu, K. Ohmori, H. Yamada and Y.F. Sasaki (Switzerland, Japan) 197
Validation of the mouse peripheral blood micronucleus assay using acridine orange supravital staining with urethane
M. Kishi, Y. Horiguchi, S. Watanabe and M. Hayashi (Japan) 205
The micronucleus assay using peripheral blood reticulocytes from mitomycin C- and cyclophosphamide-treated rats
M. Hayashi, Y. Kodama, T. Awogi, T. Suzuki, A.O. Asita and T. Sofuni (Japan) 209

[*end of special issue*]

Research Papers
Mutagenic activity of nine *N,N*-disubstituted hydrazines in the Salmonella/mammalian microsome assay
P.A. Nielsen, A. Lagersted, S. Danielsen, A.A. Jensen, J. Hart and J.C. Larsen (Denmark) 215
Comparison of the mutagenicity of quinoline and all monohydroxyquinolines with a series of arene oxide, *trans*-dihydrodiol, diol epoxide, *N*-oxide and arene hydrate derivatives of quinoline in the Ames/Salmonella microsome test
M.I. Willems, G. Dubois, D.R. Boyd, R.J.H. Davies, L. Hamilton, J.J. McCullough and P.J. van Bladeren (The Netherlands, U.K.) 227
Biologic markers in hospital workers exposed to low levels of ethylene oxide
P.A. Schulte, M. Boeniger, J.T. Walker, S.E. Schober, M.A. Pereira, D.K. Gulati, J.P. Wojciechowski, A. Garza, R. Froelich, G. Strauss, W.E. Halperin, R. Herrick and J. Griffith (U.S.A.) 237
Sister-chromatid exchange and chromosome aberrations induced by paracetamol in vivo in bone-marrow cells of mice
A.K. Giri, S. Sai Sivam and K.A. Khan (India) 253
The in vivo micronucleus test in human capillary blood lymphocytes: methodological studies and effect of ageing
K.-X. Xue, G.-J. Ma, S. Wang and P. Zhou (People's Republic of China) 259
Collaborative study of mutagenicity with *Salmonella typhimurium* TA102
R. Jung, G. Engelhart, B. Herbolt, R. Jäckh and W. Müller (Germany) 265
Study of unscheduled DNA synthesis following exposure of human cells to arecoline and extracts of betel nut in vitro
R.N. Sharan and K.K. Wary (India) 271
Enhancement of the mutagenicity of IQ and MeIQ by nitrite in the Salmonella system
J.-K. Lin, J.-T. Cheng and S.-Y. Lin-Shiau (Taiwan) 277
Structure–activity relationships of epoxides: induction of sister-chromatid exchanges in V79 cells by enantiomeric epoxides
W. von der Hude, S. Carstensen, R. Gürtler and G. Obe (Germany) 289

Contents, Vol. 278 (1992) 299
